ND QSO Party Rules:

No Remote or Internet QSO's.

Stations may operate only one transmitter at a time using the same call sign. Club entries are welcome and appreciated.

CW, Digital or Phone contacts will all count one point.

Stations may be worked once per band and mode, and once per band/mode/county for ND stations.

Each mobile vehicle is considered one station and must use only one call. - Mobile stations may park on a county line but each county must be worked in a separate contact. There are no power limitations in this contest, within legal limit.

Mobile ND stations that change counties are considered to be a new station in each new county. List of ND Counties with 3 letter abbreviations are included at

the end of this document. All operators are asked to use these abbreviations in the exchange.

Standard State and Country abbreviations should be used.

All Canadian Provinces & Territories count as multipliers for ND stations.

There are no multi-op categories therefore, a club station **cannot** count for overall Champion; mobile operators are encouraged to drive with a friend for safety.

Self spotting is not allowed.
